ABOUT ME

I am passionate about web designing experiences that are both visually stunning and intuitive, and always strive to create designs that delight and engage users.

OBJECTIVE

Hello, I'm Noman, a passionate MERN stack developer. I leverage my expertise in MongoDB, Express.js, React, and Node.js to design and implement robust web applications, with my destination set on securing a Google job.

PROJECTS

Name: Study Buddy Network
Type: Online Collaborative Learning
Time period: 4 days

- Online study rooms allow users to create or join online spaces dedicated to collaborative learning.
- Users can engage in real-time discussions, collaborate on study materials within a different environment, simulating the experience of a physical study group.
- Streamlines the assignment submission process, provides a centralized location for feedback, and enhances collaboration on group assignments within the study group.

GitHub client: https://github.com/MIRNOMAN/Online-Group-Study-client
GitHub server: https://github.com/MIRNOMAN/Online-Group-Study-server

Name: forum Community
Type: online platform
Time period: 5 days

- Allow users to create and discuss particular topics within the community.
- After creating a membership and contributing five relevant posts, the user was awarded a gold medal.
- Users can comment on every post and provide reports and feedback.
